

TOUGH MULTI-PURPOSE DISC

TOUGH STRIPPING TO SURFACE
FINISHING, WITH JUST ONE DISC

NORTON

SAINT-GOBAIN

BLAZE
RAPID STRIP

TOUGH MULTI-PURPOSE DISC

Norton Blaze RapidStrip is ideal for fast stripping and cleaning without gouging or causing excessive stock removal on metal. Depressed centre and Quick-Change discs are available and can withstand heavy applications such as stripping rust encrusted metal, without shredding. Not only tough, Blaze RapidStrip discs are also extremely versatile, by using a lighter pressure Blaze RapidStrip can also be used as a surface finishing disc.

FEATURES

- Heavy coating of Norton SG Blaze ceramic, aluminium oxide grain
- Advanced resin bond
- Extremely versatile
- 3D Microstructure
- Open structure

BENEFITS

- Can last twice as long as competitor discs
- Does not shed on rust encrusted pieces
- Prevents gouging and rework
- Does not snag when used for deburring
- With lighter pressure the disc can be used for surface finishing
- With harder pressure the disc can be used for heavy stripping
- Abrasive coating covers the entire disc providing a consistent cut rate
- Sticky coating, adhesives and soft metals will not clog the disc

PERFORMANCE CASE STUDY (RIGHT ANGLE TESTING ON CARBON STEEL)

KEY APPLICATIONS

- Stripping
- Blending
- Heavy scale removal
- Stone/granite clean up
- Cast iron, steels, aluminium, fibre glass and composites

BLAZE RAPIDSTRIP DEPRESSED CENTRE DISCS
